MEETING OF THE COMMISSIONERS OF THE W. N. C. R. R.-A meeting of the newly appointed Commissioners of this road was held at Salisbury yesterday to consider the question of prosecuting the work of this road under legislative requirements. Messrs. Hicks and Allen, of the Penitentiary Board, met with this Board at Salisbury with a view of completing the arrangements necessary for the working of the convicts, as these convicts will necessarily have to be kept under the immediate supervision of the Penitentiary Board. It is comtemplated to work from three to five hundred convicts on the work of tunneling he Blue Ridge.

SLIGHTLY SOLD .- One afternoon last week a young man from Granville county, (no offense meant, as we have been sold in the same manner, except that no Local man was at hand to report us,) while sauntering down Fayetteville street espied the life-like looking individual or clothing frame that stands in front of Zacharias & Co.'s store, and seeing the individual looked unoccupied, (an unusual thing for fair week) he accosted it with a polite enquiry as to the way to Gill's. Receiving no answer, our country friend persisted In his query, until becoming disgusted with the manner with which he was treated, he pinched the fellow's arm. The arrangement that spread over our young friend's face was only equaled by the rapidity and quietude with which he left the spot.

THE CITY DEBT .- We heartily concur in the movement being made to fund the debt of the city, and we hope the joint committee of the citizens and of the Board of Aldermen will present the matter to our people in such a light as to admit of no question as to the result. THE WILMINGTON FAIR AND THE RALEIGH LIGHT INFANTRY .- The Wilmington Star has the following to say of the military companies that will visit the Cape Fear Fair in December:

"Favorable replies have been received from the Norfolk (Va.) Light Infantry and the Raleigh (N. C.) Infantry to the effect that they will be present; other military organiza-tions are also expected. Capts. M. P. Taylor and H. G. Flanner, of our local companies, have been appoint-ed a Committee of Reception to visiting military." Gen. M. W. Ransom has been in vited to take command of the mili-

R. bonds necessary to relieve that road of all obligations, under the recent purchase made by the State, were on Monday forwarded to Treasurer D. A. Jenkins at Charlotte, Trustee of the road, to be used in liquidating the debt of the road and enabling the present management to go ahead with the double work before them. The issuing of these bonds in the place of the present floating debt of the road will place that road upon a financial basis that it has not hitherto

THE TYPE-WRITER.-We are pleased to see that our friend, Mr. Alfred Williams, of this city, has taken the General Agency for this machine. It was exhibited at the late Fair, and excited much interest. Its writing is fully as legible as print, and nearly as uniform and beautiful. The average speed of the pen is from fifteen to twenty-five words a minute; the average speed of the Type Writer is from thirty-five to sixty words a minute. Some operators write as many as a hundred. Its simplicity is such, that any one who can spell can write with it. We understand that it s rapidly coming into favor. We call attention to Mr. Williams'

advertisement in another column. MR. FASNACH'S LARGE CLOCK .-Among the interesting objects in Floral Hall which deserved a special notice, but by its very service daily was overlooked, as one forgets sometimes a close friend to observe a stranger, was the tall English clock, made at the establishment of our esteemed fellow-townsman, Ed. Fasnach. The dial plate was not quite finished in ornamentation, as the clock was manufactured just prior to the Fair. It had the interesting compensating pendulum of mercury, the expansion of the quicksilver upward balancing the expansion downward, from a fixed point, and of course vice versa to cold. Mr. Fasnach deserves credit therefor. Let us build up our own citizens in their enterprising efforts.

THE PAINTINGS OF THE RALEIGH FEMALE SEMINARY. - Among the institutions of which Raleigh is justly proud, is the Female Seminary, under the patronage of the Baptist Church, which has Prof. Hobgood for its accomplished Principal. It was handsomely represented at our late State Fair by an array of drawings and paintings that would do credit to any institution. Among the former one of the most noticeable was the "Monarch of the Glen," while the Moose Hunt, Little Samuel, Evangeline, The Madonia, the Old Horse and Little Children, had their several admirers. There were several excellent landscapes also in this department. Of the paintings, the Shipwreck

was boldly executed, and we heard it much commended; The Mill on the Floss, Guido Sketching Beatrice in Prison, the Deer Hunt, and several landscapes were also enjoyed by many lovers of art. There were twenty-five entries from this institution, and the collection received the premium. When we look back to the standards in artistic pursuits in Female Seminaries a generation ago, one is struck with the change, and begins to realize the advantages now bestowed upon our fair daughters.

THE HUSKER .- See the announce ment in another column of this improved machine. Mr. Plummadore has the right to this and other cities.

Newspaper advertising is now recognized by business men having faith in their own wares, as the most ERROR.—In alluding to the drilling effective means for securing for their goods a wide recognition of their merits.

Tour North .- Dr. W. H. Howerton, Secretary of State, has gone to New York on business for the State, and will be absent for some ten days. In the meantime Mr. F. H. Bailey will act as Secretary.

MARRIAGE.-At the residence of Dr. W. H. Howerton, in this city, on the evening of the 18th inst., Dr. J. O. Wilcox, late representative of the State Constitutional Convention from Ashe county, and Miss Maggie Henry were united in matrimony, Dr. Marshall officiating. The bridal party left for Ashe county on the same evening.

AFFAIRS AT APEX .- A correspondent writing from Apex, under date

"Apex has no complaint to make this fall. Trade is now about com-plete. Some very tasty dwellings and business houses are in course of erec-tion. Among its new citizens this merly of Warrenton, more recently of Baltimore. With an accomplished lady companion, he seems as happy as one could wish." Y.

A FATAL RATROAD ACCIDENT-A NEGRO MAN KILLED.-We learn that on Monday, as the construction train on the R. & A. A. L. R. R., between Sanford and Cameron, was passing up the road towards Cameron, the flat cars being in front of the engine, the train ran over a cow which threw some six of the flats from the track, completely demolishing the same and killing a negro man (train hand) who in attempting to jump from a flat was caught between the cars and killed. The engine was not thrown from the track but was slightly injured. The engineer, Mr. Frank Tighe, could not be held responsible for the accident.

IMPORTANT TO SHERIFFS .- As yet but two Sheriffs have settled with the State Treasurer. The Sheriffs will remember that under the existing laws they are compelled to settle by the first Monday in December, or they will not only forfeit all commissions but \$1,000 and ten per cent. Upon the amount of State taxes, as per sec. 39 of chapter 154 of the laws of 1874 '75. There be ing no Legislature this winter there can be no relief given, and hence the law must be strictly complied with. as the Auditor will rigidly enforce the penalties.

Our State press will doubtless do a favor to the Sheriffs by pressing this fact upon their attention.

JOURNALISM UNDER DIFFICULpatriot, tells an amusing story about the troubles of journalists in Hungary during the absolutist reign. Baron Sigmund Kemeny was the e litor of a paper for more than twenty years and nearly every night he was roused from his sleep by a commissioner of censure and told that something must be taken out of his paper. The editor bore the affliction patiently for a long time, but one night about midnight he was shaken from his dreams and told that his leading article must come out or, the paper would be confiscated. Losing all patience the editor told the commissioner to confiscate it in turning over went to sleep again. The astonished commissioner waddled back to his chief and told him with horror in his eye that not only had the editor spoken disrespectfully of the censor but had actually begun snoring before the worshipful comoner could get out of the room. "There must be something in the back-ground," muttered the censor. "it will certainly rever do to confis cate, the paper," and the editor was

The latest gossip from Paris will not be relished by Americans. The Bois de Boulogne is said to be rapidly recovering its gayety. Pro among the gorgeovs turnouts is the superb equipage of the beroine of the Russian diamond scandal, the notorious Mrs. Blackfort, and her equally beautiful but less celebrated compan-ion, the heroine of a recent New York divorce suit. These two are the most marked and talked about of any ladies of the same type in Paris. Mrs. Blackfort has already avowed her intention of dethroning Cora Pearl, and of succeeding to her evil sovereignty. Her portrait is in the window of every prominent photographer of Paris, and her faultless figure, long, almond-shaped eyes, refined, half-melancholy expression, and painted lips are already familiar to all loungers in the Bois de Boulogne or on the Boulevards. She will be setting the fashion for all virtuous Christendom n a few months in all probability. The residents of that beautiful vil-

lage, Geneva, N. Y., would not allow the Geneva, Ithaca and Athens railroad company to extend its track through the place in order to form a connection with the New York Central, and the result has been that the company put on a large force of men at night and the track is laid. A Philadelphia special says: Char-

lie Ross' father, on Saturday, re-ceived a dispatch from a man named Robinson, living in a small village in that he had found a child answering the description of the missing boy; and though not attaching much im-portance to the information, Ross left for Illinois Saturday afternoon.

The Pennsylvania Democracy undismayed by the result in Ohio are determined to win a decisive vicTHE PANDORA.

Return of the Arctic Exploring Fx-prodition to Portsmouth-A Won-de ful Cruise-Exciting Search for the Northwest Passage-Remains of the Ross Expedition.

A special dispatch to the N. Y. Herald, under date of London, Oct. l6th, says:

The Pandora arrived safe and sound at Portsmouth this afternoon, after an adventurous and eventful voyage in the Arctic seas. Mr. MacGahan, the Herald correspondent, telegraphs a brief outline of the experiences and events of the expedition.

From his hurried narrative it appears that the Pandora arrived safely at Disco and left that port on the 7th

of August, reaching Upernavik in time to leave there on the 13th. After sailing from the port of Uper-navik the Pandora crossed the dread-ed Melville Bay without any mishap, for, contrary to previous expectation, the usual fields of pack ice were not visible, and almost a clear sheet of water was found. Consequently the

passage was made in good time and in smooth water. In due time the expedition reached Carey Island, where Commander Young anticipated finding despatches that might have been left there by Captain Nares to be taken to the British Admirality. In this he was disappointed, as no signs of the government explains are distanced. ernment exploring expedition were

visible. There being nothing further to be done at the island, Captain Young decided to steer for Lancaster Sound and on reaching that point, encountered for the first time the ice floes. So great was the pressure of floating ce that it was with great difficulty that the Pandora was forced on her

Despite the ice and the difficulty of passage. Captain Young succeede traversing the entire length of Barrow Strait, making the passage in good time. The Pandora's progress was then impeded by a dense and blinding fog, which was so thick and impenetrable that men a few feet from each other were in Moving slowly and cautiously by

compass and soundings, the Pandora made such headway as to reach Beechy Island on the 25th of Aug. When land was sighted considerable excitement was caused among the crew by the discovery of the yacht Mary, which had been drawn up on the beach by Captain Ross, in 1850. The Pandora anchored, and it was found that the yacht was still

standing with masts upright. On the 26th of August the Pandoa steamed away from Beechy Island for Peel Strait, and then ensued the most critical period of the entire vast fields of pack ice, which made the passage of the vessel a most diffi-cult and laborious one. Struggling through the pack ice the Pandora steadily worked her way onward, and despite the difficulty soon passed the furthest point reach-

ed by the Fox when McClintock was in search of Sir John Franklin's Soon after reaching that point the Pandora neared the island known as King William's Land, thus navigating a sea where no ship was ever before, except, perhaps, that of Sir doubt, where that explorer was final-

ly beset by the masses of ice that roved his destruction. From King William's Island the Pandora steamed down the west coast of Prince of Wales' Land, and encountered most delicious weather. The atmosphere was soft and refresh ing, and the bitter cold of the Arctic

ne was replaced by warm air currents and open expanses of water. At this time the most intense excitement prevailed among the officers and members of the expedition, as it was expected that some important results were at hand. Many believed that they would be sure to discover traces of the Franklin expedition and some were sanguine that ever this, however, they were disappoint-

The Pandora eventually making Behring's Straits, the voyage of th progress, as Rouquette Island was already discerned ahead. It was then considered probable that the vessel would be able to reach Bellot's

As the steamer moved forward all hands were gazing eagerly ahead to the southward, but on reaching Rou-quette Island the officers and men aw the edge of the solid pack of ice, which stretched across the Strait from ide to side in one unbroken expanse of hummock ice. This pack blocked the entrance to Bellot's Straits. It was this same pack of ice that stopped Captain McClintock in the

movement of the icy barrier. The Pandora stayed at this point until the 7th of September, when, finding that no further progress was possible, Captain Young and his or-ficers saw that they must decide either to remain through the winter in the ice, or return. After mature deliberation it was decided to be useless to remain in winter quarters, and that it would be far better to re-

turn next year.

The return journey was full of difficulties, as the ice was rapidly forming, and the passage of the Pan-dora was a constant series of exciting scenes and narrow escapes from the moving ice floes. Finally escap rapidly forming and accumulating, the steamer finally reached the Cares Islands in safety. There Captain Young found the long looked for di a ches from Captain Nares for the British Admiralty.
These he brought home.

From Melville Bay the homeward voyage was almost uneventful. The dreaded bay once safely passed un-harmed, the Pandora steamed direct for England and arrived safely in Captain Young reports that from

the prevalence of north winds there is abundant promise that Captain Nares will prove successful. Should the expectations of the Paudora's commander be verified Captain Nares will proceed to the highest latitude possible for an Arctic vessel to reach. The Pandora only lost two topgal-lant yards and two jibboom ends her whole voyage. All on board are alive

and well.

The Pandora belonged to the British government, from whom she was lately purchased by Captain Young.
She is a smart looking schooner of 115 registered tonnage.

THE MAINTENANCE OF HEALTE.—The maintenance of health is often more difficult than its recovery. Vitiated conditions of the atmosphere, unhabithy occupations, extremes of the heat or cold, and constant exposure to rough weather, are all so many provocations of disease. There is but one sure way of effectually guarding the system when thus subjected to influenc s prindicial to health, and that is to establish by judicious tonic and that is to establish, by judicious tonic and that is to establish by judicious tonic and that is to establish by judicious and regularity of the functions. The properties of an invigorant and corrective are happily combined in Hostetter's Stomach Bitters, which, at the same time that it infuses unwunted vitality into the system, overcomes all tendency of the stomach, liver bowels and urinary organis to de'i ate from regularity in the discharge of functions upon which the widere of the entire physical organisation is dependent. Health cannot be more effecturity maintained than by using the Bitters.

Don Carlos, in quarreling with his Generals, and dismissing them from his service, shows in what a demoralized condition his affairs are. Four of them, the cable informs us, have met with such treatment at his bands.

THE Pope and the Kaiser are not such bad friends, after all, as one might imagine. It is said that in consequence of the intercession of the former potentate the term of imprisonment of Cardinal Ledochowski has been shortened, and that probably a full pardon will be granted to the Prussian prelate.

THE W. N. C. R. R.

We learn that things are progress ing satisfactorly on this road. The selection of Col. Tate was acceptable, and his experience will furnish much of what was exceptionable in his associates. Our interest in the success of the enterprise disarms of us of captious opposition, and we must take what has been done as inevitable and hope for the best.

PEACE GUARANTEED IN MIS-SISSIPPI,

While Gov. Ames was invoking ble him to maintain law in Mississippi, the quiet voice of his own conscience was telling him that he was going too far, and that Mississippi was not more wrong than other Southern States, "Military operations are suspended." Well, the wolf has for a long time mudied the stream above the lamb.

AMUSEMENTS.

People will be amused. They will go to the Circus, to Benedicts Minstrels, to the Mexican Showto anything to escape from the monotony of every day life. Well, this is all right, for it is impossible to plumb the line of hard duty. There must be relaxation. Some find it in the pleasure of a religious exeitement. Some go to another extreme. Yet, after all it comes back to a necessity in the human mind for change and for exhileration. We make the discrimination between the two extremes, at the same time the representation brings fairly and squarely before the mind the ideas such courts. of human wants.

THE OHIO ELECTION. The Wilmington Star does not lose heart over the Ohio defeat-a brave soul that sees no disaster in a temporary overthrow. Politics, like war, has its fields of conflict. Ohio is not the Magenta, the Manasses of the Presidential conflict. It was a preliminary fight on a grand scale, but the forces were so nearly matched that neither party can take special courage; the victors not entitled to much glory, the vanquished accepting little shame. Let the Democrats of the country stand up. They have made a good fight, and the day is ahead of them when they will make a better and more suceessful one.

INTOLERANCE.

The Asheville Pioneer harps upon the old idea suggested by the New North State, and calls upon the Governor to re-organize the Boards of Public Institutions.

Intolerance we look for from the party of the Pioneer. That has been the creed and the practice. Yet, years ago we reflect with pleasure upon the success of efforts to retain in place a gentleman emimently qualified for his position, though he was a Republican. Cach has always been our principle and

Democrats ask nothing, for their turn will come. If the Republicans have not learned magnanimity in their possession of two of the three cardinal branches of the State government, they cannot expect it when the Democrats get full power, and that is sure to come.

PERSONAL PEUDS. The Index-Appeal of Petersburg stands up most loyally for party fealty. It says broadly, but how truly, that if personal feelings carried into a canvass have any effect at all, it must be bad.

Such are the teachings of all experience in a violation of the integrity of discipline. Revolt must recoil upor the rebel. Independence is naturally construed unto egotistic assumption. Let us all believe that what is the general sentiment of a party is the out apoken tenes of the vox pupish vox sec.

Popular opinion is not often at fault, certainly never when it rebukes the independent demagogue.

Let each party stand to its standard. A fair fight will always win. Independence will always beget

"In five years from this time the census will show our number to be more than 50,000,000. The day, then, is dawning when the lands of the South will be greatly lifted up in value. I have given much time and thought to the agricultural condition of the United States. I have traveled extensively, and I have examined with care into the industrial interests f all sections, and I am confident that hereafter the South will get a large and growing share of those wh are steking new homes either from Europe or from the older States of the Union. This flood-tide will bear with it wealth and varied industries. I pray for the day when the South shall be prosperous in all its pursuits, for until it is so there can be no assured pervading welfare in other sec-

Senator Bayard, of Delaware, who recently spoke at Richmond and Raleigh, also takes a hopeful view of the situation, and predicts a future for the South of unprecedented growth and prosperity.

THE WORK OF THE CONVEN-TION.

Now let us look back upon the work that has been done, and see if it is worth while to make it permanent. For what has been done, is only half done until sanctioned subsequently by the people.

Looking to the defeats of the Canby Constitution, and the wants of the people, the Democratic party has been earnest in demand for revision. A complete reconstruction of the instrument would have been preferable, but that the restrictions imposed by the Legislature calling the Convention made impossible. Amendment was therefore the only

Now let us look what is done. Really one ever of the most important resolutions has been made in the Judiciary. It was desired by many that the Judges should have been elected by the Legislature. That was not accomplished. But the principle of rotation was established, and much of the evils of a fixed

judicial existence were abolished. The East has been relieved to the extent that the General Assembly has power to establish Courts inferior to the Supreme Court with a power to provide for the appointment of the presiding officers of

As regards the reduction of the number of Supreme Court Judges, there will be no word of dissent.

What we have asked for was granted the disqualification of the felon, and a residence of 90 days. This goes far to remedy a trouble which might have been supplied by another provision.

But what is done is before the public. The work is for the people to do. Let them stand up to their representatives, and make their work endurable. What was asked has been in some measure given. The worst festures of the old constitution have been removed. With the introduction of the amendments, all may be satisfied.

Mr. and Mrs. Andrew Bradshaw have asked for letters of dismissal from Plymouth Church. Mr. Beecher was very much embarrassed when making the announcement at the Friday evening prayer meeting. Ere long Mr. Beecher will get used to these trifles, and will be able to read requests of this kind with all the assurance peculiar to the people who live above, and are not of the ordinary

But let the idea go on. It is a sure and can for Dr. Bull's Cough Syrup, if you are troubled with a bad Cough or Cold. It will give you relief. For sale by every respectable Druggist. One bottle 25 cents; five bottles for \$1,00.

GRANT.-It is announced from Washington that Lieutenant Colonel Fred Grant is expected in that city to take an active interest in the new banking house in which he is a part-ner. It must not be supposed, how-

ever, that the United States army is to be deprived of this distinguished ornament to the service. As his arduous duties in traveling over the world at the public expense and improving the tone of society in the National capital by his residence there have been but inadequately re-warded by his rapid promotion over the heads of deserving officers who have risked their lives in actual warfare, we are informed that he has concluded not to resign his position in the army', but will confinue to draw pay as usual under a grant of a year's leave of absence, which can be renewed indefinitely-so long as his pa remains in office. Among the blessings that might be reckoned on as a compensation for the excitement which would attend the re-election of President Grant, we may include the certainty that a third term of Ulysses would give the country likewise a third term of Fred and Orvil Grant, and of Casey, and of all the

the Shelby Aurora: "The side Convention of the Baptist durch will assemble in Shelby on the 10th of November. Our citizens are preparing to entertain the ministers and delegates with flowing hospitality. The attendance will be large—probably four or five hundred will be present."

Says the Asheville Pioneer (Radia of Wm. A. Smith : "Major Smith is no longer receiver of the W. N.C. R. R. Wi'h what grace he could command "he stepped down and out" on the 1st inst. As a regeirer of moneys the Major proved a mocess and in his retiracy to the iney woods of Johnson we wish mall the luck of a granger, secure

Says the Alamance Gleaner: We learn from a friend that Mr. J Ferrell, of Chatham county, has year raised a gourd that is five atin circumference; or rather the gord raised itself on Mr. Ferrell's remises, the planting of the seed sag all the help it had. Now, if he next year's campaign should be a of 1840, and hard cider uld become a symbolic beverage uring its progress, and should it be on in the truly rural style—out of gourd-how anxious many would get this gourd, or some of its ne, and send us some seed, we want set up in opposition to the coopers. and kraut stand makers."

The Wilmington Star gives the blowing particulars of a desperate conflict which took place lately at a point on the line between Columbus mi Bladen counties:
"It appears that a feud had long

existed between a family of whites by ame of Buie and a family of mulattoes in the same neighborhood y the name of Young. On the day mestion a renontr took place b ween some of the parties, in which the male members of each family ly became engaged, including one side, and Jim Young, his Isaac Young, and an Indian threed by the name of Wilson, on ther side. During the fight, in agun and a hatchet figured he weapons, the elder Buie ed a severe gun-shot wound in side of one of his legs, and Jim ang got a severe blow from the thet. The wound of Mr. Buie is to he a very serious one, and gresult in the loss of his leg, if whing worse."

The Work of the Convention. The Rocky Mount Mail, reviewing work of the late Constitutional ovention, says: We have noticed closely the work-

as of this body, and we have no bestancy in saying that the Demo-cate members worked harder and polied themselves more earnestly a the work for which they were eated than has any other body which has ever assembled in the Nith all the obstacles thrown in their way by designing and corrupt members of the Republican party, olding seats in the Convention and entitled to the privileges and court-sie of the position, the Democrats have not faltered or proven themselves untrue to their people, but have remained steadfastly at their posts and pushed the work of the session with all possible earnestnes., and dispatch. We believe the Den ocrats in the Convention have done their full duty, and have effected as much good as possible with their slim majority. There must be a difference of or inion even among with men of our own party, and when this is considered. this is considered, in connect on with our bare majority, we think ur people should be content with the ments which have been passed. The Republican party, in order to make capital for the next camhaigh, have acted most shame and unfairly. They have sought dur-ring the whole session to retard the work of the Convention by fair means and by foul, and their conuct deserves the censure of all good men, without regard to the party. they have made for themselves a record which is not easily wiped out and which, to their shame and sorlow, will be held up against them for years and years to come.

A number of Indians attacked the Cancho gatherers on the Isthmus of Darien, killing fifty of them and to some 800 men.

This percentage of surplus returned is much greater than that of any other company, and more than twice test of several fending ones. It is the legitimate and inevitable result of care in the selection of risks and high rate of interest received from well-invested sweets. As the actual cost of the insurance to the policy-holder is regulated, not by the table rate charged, but by the amount the Company is able to save and return to him from the premium paid this later item is of the greatest importance. Manifestly the company which is able to return to its policy-holders the most surplus premiums, furnishes their surance at the lowest cost. Mississippi Affairs. MEMPHIS, Cet. 19.-In a so-called treaty of peace between Gov. Ames and the Democratic Stale Executive Committee at Jackson, Miss., whereby the militia was discharged, the committee assured the Governor that there was no other desire among the whites than that peace should be preserved, the laws enforced and a fair election had, and that the leading whites would do all in their power to this end. The Governor responded that in yiew of this assurance he would meet their views as far as possible, and would order all the militia companies to disperse and return to their homes. It was agreed that the arms of these companies should be deposited in the depots in the neighborhood in which the companies were raised, and be guarded by United States troops, and to be removed only by order of the Governor. The arms would not be delivered to the militia except in case of a riot or insurrec-tion, which could not be suppressed by the civil authorities.

EXTRAVAGANCE IN HARD TIMES -The Christian Intelligencer, of New of this country are now paying capi-tal and compound interest for their lavish expenditure in the flush times of the war and the few years succeeding it. Shoddy put on its plumes and flaunted itself in silks and velvets and gold; sober minded people caught the plague; everybody and everything glittered. Now the tinsel has worn off. Financial reaction has made hard times.

Five years ago Conductor McKinney, of the Hartford and New Haven railroad was given a thousand dollar bill by a sleepy passenger for fare. He took it into the baggage car to hange it, and upon returning the passenger denied having given it to him, claiming to have handed him a ticket. McKinney put the money in a savings bank, where it still re-mains. The story has often been told in the newspapers, yet no claimant has been discovered.

A Frenchman has been murdered in Cuba by Spanish troops, and the Captain General charged with surpressing the truth in his reply to the French Consul. A STATUETTE OF LEE.-A statuette of General R. E. Lee by C. Buberl, the carver who cut Valentine's rehigh, and represents Lee, standing besi is the stump of a tree, dressed in full uniform, with his cloak thrown over his shoulder. The left leg is slightly bent, and the left boot rests on a rock, his arms folded, his right hand grasping his gauntlet, and resting on the hilt of his sword. The head is bare, with his face turned to the left. His saddle and trapping rest on a dismounted cannon. The likeness is, perhaps, not very striking, but otherwise the statuette is prononneed by artists to possess a high order of merit.— Richmond Dispatch.

At a meeting of the general freight agents of the railroads leading from Chicago to the East, at Chicago, on the 11th ins ant, it was decided to make the rate on grain from that city same as on fourth-class goods That is, the rates to the several cities will hereafter be as follows: From Chicago to New York 40 cents per 100 pounds; to Boston 45; to Philadelphia, 35; to Portland, 45; to Baltimore, 35; to Albany, Troy and Schenectady, 35. Flour and meal in lots of 50 barrels and over are charged just double the above named rates for

grain.

The Republican press, which not long ago was fierce in denunciation of Mr. Schurz, now welcomes him back to the party, but he declares himself in an independent attitude, free to cooperate with any party in the Presidential election. It depends entirely how the fence is built as to which side he gets down on, and therefore the Radicals would be wise to look to the timber of which it is constructed.

The people look to its columns for advertisements because it contains the largest number and greatest variety of any paper published in North Carolina.

Advertisers patronize it because it is the recognized medium of advertisements and because it has the largest circulation in the State. They are satisfied it pays or they would not invest their money from year to year without benefit. TO BUSINESS MEN. A good advertisement in a widely circu-ted newspaper is the best of all possible A salesmen. It is a salesman who never sleeps and is never weary; who goes after business early and late; who accosts the merchant in his store, the scholar in his study, the lawver in his office, the lady in her home, the traveler in the car or bont; a salesman who no purchaser can avoid, who can be in a thousand places at once and speak to thousands of people daily, E saying to each one the best thing in the best manner. A good advertisement insures a business connection on the most permanent and independent basis, and is in a certain sense, a guarantee to the customer of fair and moderate pri-

ces. Experience has shown that the dealer, whose wares have obtained a public celebrity, is not only enabled to sell, but is forced to sell at reasonable rates, and to furnish a good article. A dealer can make no better investment than in the advertising columns of a widely circulated newspaper. Buch is the opinion of a man who is known to be the largest advertiser in the United States.
